Fly high to freedom

Riviera Flybridge Collection - first class all the way

In business the view from the top has many perspectives: uplifting, time constraining, always challenging. Come on, you've earned a break.

Another view from the top awaits. And it is calling you now. This is a world filled only with happiness and success: family and friends, luxury and renewal, unforgettable memories and joy.

At the helm of your magnificent new Riviera Flybridge luxury motor yacht, you oversee a world of unsurpassed beauty and grace, where life glistens and shines.

Any of the yachts from the Riviera Flybridge Collection, the 52 or 57 Enclosed Flybridges or the 43 or 45 Open Flybridges, can effortlessly fly you and your loved ones here.

You will be traveling in sublime blue-water style. With world renowned craftsmanship and quality, space, light, luxury, breathtaking accommodation and thoughtful inclusions at every turn. All underpinned by superior strength and build, astonishing stability and spirited performance.

Welcome aboard the world renowned Riviera Flybridge Collection. What a way to fly.

Riviera Owner - Rodney Longhurst

Riviera 45 Open Flybridge: your flight to freedom begins here

Every journey begins with the first step, so we've made the 45 Open Flybridge supremely easy to board. Simply walk onto the wide boarding platform, unlatch the transom door and you're in the spacious, versatile cockpit space.

If you ever require a textbook example of Riviera's renowned practicality and attention to detail, you'll discover it here. For a start, the cockpit is completely self-draining and fitted with a reinforced plate in the floor making it easy to fit a game fishing chair or cockpit table. All floor hatches are gas strut assisted, lockable and fitted with rubber seals. There is also a deep, removable fish box with pump out facility concealed in the cockpit floor, although we will forgive you for not knowing it's there.

In fact, with a surfeit of clever, in-built design flexibility, the 45 Open Flybridge can be simply transformed into the complete angler's craft by outfitting the cockpit space with a live bait transom tank, outriggers, heavy-duty rod holders, even a game tower and more.

However, you may decide to focus on family cruising and instruct us to outfit your cockpit accordingly. That means stepping out onto skilfully mastered teak decking, selecting your preferred outdoor fabric for the deeply comfortable mezzanine lounge and specifying a handcrafted cockpit table and occasional furniture to make the most of alfresco, on water living.

Already you're picturing memorable entertaining occasions out here, glorious afternoon sundowners, dinners under a canopy of stars. You will never see your friends and loved ones so contented and happy.

And as you lightly braise the delicacies on the optional gourmet barbecue's hotplate or offer more refreshments from the refrigerated cockpit cool box, you realise you too are experiencing life at its best.

Happy and free onboard your Riviera 45 Open Flybridge - a feeling to relish.

Freedom of choice, safety in movement

Giving our owners a choice wherever we can - an ability to tailor the layout of the 45 Open Flybridge to best suit their particular needs - is key to it being such a practical and enduring design. Look closely now at the foredeck: an example of this philosophy in action.

Up here Riviera designers give you the choice of fitting an optional davit to store your tender, creating maximum boarding platform and good cockpit space for the pursuit of serious fish or entertaining fun. However, should you decide to store your tender on the boarding platform, you can transform the foredeck into an additional onboard entertainment space - perhaps an ideal retreat for onboard teenagers or the ultimate sunset viewing point.

Choosing to store your tender on the boarding platform affords another option: the ability to specify and luxuriate in the plush comfort of Riviera's double sun lounge with stainless steel rails, purpose designed to fit this space. Pure bliss.

Whichever tender storage option you favour, on a craft designed for the adventurous spirit, expect many visitors to the foredeck area. They may wish to assist you in anchoring or berthing or simply to bask in the sun and solitude, but rest assured, all will feel completely safe and confident.

By utilising a combination of wide, non-skid side decks featuring thoughtfully placed handrails, a high bowrail that runs well aft and raised, toe-kick bulwarks, Riviera designers have assembled a superior safety package that imparts real confidence as passengers move about.

Note too the Riviera attention to detail by insisting that the bow rail is fashioned from highly polished, marine grade 316 stainless steel, as are all exterior fastenings like cleats and fender holders. All the anchoring equipment you need is thoughtfully hidden from the elements and view in the foredeck's deep anchor lockers.

Step into more luxury inside

All yachts in the Riviera Flybridge Collection feature a very generous beam, not least the 45 Open Flybridge. It helps create more headroom, space, light and lifestyle opportunities than you'd have thought possible.

So, by simply closing the stainless steel-framed, ship-like awning window and saloon door, you transform this interior space, the saloon and galley, into the most superbly proportioned private retreat. Take a moment to soak it all in. Spectacular views frame your every experience. Lovely handcrafted touches and contemporary fabrics add an air of accessible luxury.

It's all been purpose-designed with more than enough space for you to dine, unwind and luxuriate in each other's company, or choose to do your individual thing.

Move forward to port and discover the self contained, U-shaped galley space. Close enough to converse, just far enough removed to allow the chef space to create, it features fine stainless steel appliances, corian bench tops and a standard of wonderfully finished cabinetry - you'll love the look and touch of the quality woodgrain and enjoy the ample storage - that sets Riviera apart.

The saloon: think luxury living room

In truth the heading above is an understatement. The living room of a fine waterside apartment has one view. But surrounded by large, tinted and tempered glass windows, the saloon of your Riviera 45 Flybridge basks in an infinite number of spectacular views.

Here, you're cocooned in complete luxury yet totally at one with a breathtakingly varied outside world. This is the space hosts and guests gravitate to time and again, the natural heart of your cruising yacht.

Decide on the perfect temperature from your reverse cycle air conditioning, then take your place in one of two facing opulent leather, L-shaped lounges. Perhaps friends and family might enjoy an aperitif from the cocktail cabinet to starboard? With its own icemaker and drawer refrigerator, it helps make for wonderfully chilled moments. Cheers!

In this place of privilege and luxury, a world away from the everyday, you'll find great conversations just flow. Guests grow closer, families become inseparable. But should the sunset stun everybody into momentary joyous silence, please feel free to add a soundtrack to the beauty courtesy of the saloon's four speaker CD/DVD with iPod interface and AM/FM sound system.

Of course sea air is also a renowned appetite builder. Tonight's meal will be enjoyed around your high gloss, handcrafted timber dining table to starboard, and opposite the galley for convenience. Bon appetit.

Afterwards, you may wish to continue the conversation or elect to catch up on some required viewing. Settle back and enjoy all that your flatscreen TV/DVD entertainment centre conveniently located forward has to offer.

A masterclass in restful luxury

Everywhere you look your Riviera 45 is a triumph of sophisticated, attentive design. So please, venture below now to the accommodation deck and get ready to be pampered, rested and impressed.

Located forward the master stateroom and ensuite promise the last word in luxury; these are wonderfully welcoming, restorative spaces. From the plush pile carpet underfoot to recessed LED lighting overhead and the superb handcrafted feature timberwork and storage, everywhere you look you will see proof of Riviera's celebrated and highly awarded attention to detail.

Take the master's island bed with its quality innerspring mattress. Because onboard storage is so important, the entire bed tilts on gas struts to offer extra storage below. That, of course, is in addition to fragrant, cedar-lined hanging lockers with auto lighting to starboard, handcrafted cabinets lining both sides, bedside tables, shelves to port and additional outboard storage cabinetry.

The standard of appointments throughout means you can revel in all this ambience and comfort (including reverse cycle air conditioning) for a few days or, just as easily, for a few months. Being such an restful and inspired environment, you'll almost certainly specify the optional master stateroom entertainment centre with TV, stereo and iPod interface. Relax.

Next door, crafted with the same fastidious attention to detail, you'll discover your adjacent master ensuite. Boasting fine designer touches such as a stylish porcelain basin and frameless glass shower stall, it too promises a new standard of cruising lifestyle and luxury.

Where guests are treated like VIPs

The sense of pride and excitement which comes with owning such a yacht calls out to be shared. No effort has been spared making this an unforgettable passage for your family and friends. Striking out for freedom and all cocooned in sheer luxury.

The VIP stateroom located aft portside accommodates two fortunate guests in side-by-side, adult-sized beds. Featuring ample storage space beneath, the twin beds can be converted to a double bed courtesy of a clever infill.

There is reverse cycle air conditioning to enjoy and a fixed hull window and porthole for natural light and ventilation. Your guests will appreciate the luxuries as well as the thoughtful details such as plush pile carpet, cedar-lined hanging locker and LED overhead and reading lighting, plus the option of their own TV/stereo/iPod interfacing entertainment system.

Immediately adjacent is the VIP ensuite, which also doubles as the day head. Here, guests are treated to a level of appointments including vanity, porcelain basin, well lit mirrors and large frameless glass shower stall, normally associated with the world's finer hotels.

Your guest stateroom to starboard also accommodates two, this time in adult-sized upper and lower beds. Everything your guests enjoy most about the VIP stateroom, the reverse cycle air conditioning, cedar-lined hanging locker and plush pile carpet, once again soothes and welcomes.

Here, as in all onboard spaces, the luxury is unrivalled, the feeling unsurpassed. The craft is the Riviera 45 Open Flybridge: Helping you fly high to freedom.

Step up to the flybridge

Kindly accept our invitation to step up yourself to what is arguably the Riviera 45 Open Flybridge's most popular feature, and for good reason - the fabulous moulded staircase connecting the cockpit to the open flybridge.

Wonderful for families, a genuine boon for older passengers, this outstanding piece of nautical design affords unparalleled safety and ease of access. And boasting wide deep teak treads and stainless steel rails on both sides, it does it all in commendable style.

So step up now to the area that gives this craft its name, the Riviera 45 Open Flybridge. Here, the spirit of design freedom exhibited in every part of this yacht finds ultimate expression.

Beneath that lightweight, double-moulded hardtop on its impressive stainless steel supports you'll discover a light, bright, luxurious space - a thousand nautical miles from onshore stresses. That's moulded non-slip flooring at your feet (with the option for marine grade carpet) LED lighting overhead, and optional four-side clears for true 360 degree visibility.

Now, what about the comforts? Well, take your seat in the L-shaped lounge to port or the starboard lounge, both feature softly cushioned, all-weather vinyl upholstery and self-draining lockers underneath. They're easy living, easy care. With enough room to seat up to six adults.

And should you so desire, you can lower the flybridge table on its hi-lo pedestal to easily convert the entire L-shaped lounge into a generous, full size day bed.

Then there's the wet bar with solid surface bench top, drink holders, sink, storage and optional fridge. And to help you all sing your songs of freedom, make sure you turn up the flybridge's independent four-speaker sound system.

Unmatched visibility, modern, easy operation

Located aft and to port the classically designed helm control station is magnificently sited for visibility. Here it is just as easy to navigate a safe course forward as it is to communicate with the crew in the cockpit below to help maneuver your yacht into best position to land fish or berth.

You're certain to feel a real sense of confidence and impending excitement when you proudly take a seat in the luxurious captain's chair (with its matching companion chair) and survey your position. Isn't it all truly breathtaking? And not just the views forward and aft, port and to starboard, but the Riviera attention to detail and embrace of technology you see in the instrumentation on display in front of you.

Taking hold of the sporty, stainless steel steering wheel you get your first inkling of the spirited performance to come from a choice of either twin shaft drive CAT or twin Cummins' diesels at your command. Both deliver an outstanding combination of effortless power, traction and maneuverability that will get you to your dream location or favourite offshore fishing ground fast and in total comfort.

Helping guide your every journey are large multi-function displays with the touchscreen-easy operation you relish in so many areas of your life. Everything you need to know is right there clearly on display. At a glance you'll take in full vessel controls, along with intuitive navigation displays and engine monitoring systems.

Let the adventures begin.

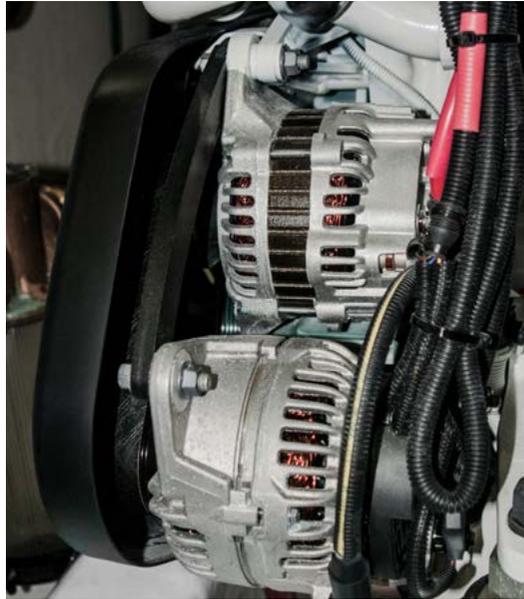

Engineering excellence

The clean and uncluttered engine room – with acoustic and thermal insulation and LED lighting – highlights the skilled consideration for which Riviera is renowned globally in terms of engineering.

Accessed via a hatch and stainless steel ladder from the cockpit, this is a very open and functional space – the result of creating a separate machinery room amidships that houses air-conditioning compressors, freshwater pumps, battery chargers, the inverter and other associated equipment.

Accessed via the galley floor or a noise insulated door in the portside guest stateroom, this machinery room ensures ease of maintenance.

Electrical excellence

All batteries onboard the 45 Open Flybridge are maintenance-free to ensure carefree boating and are housed in special battery boxes in accordance with the American Boating & Yacht Council (ABYC) and the European Union's CE industry standards.

LED lighting is utilised throughout the yacht and provides trouble-free boating while reducing electrical current draw. The lamps use less than 10 per cent of the power required to run a halogen lamp – no bulbs means no maintenance and long service life. Additionally, a Ground Fault Circuit Interrupter provides protection over the entire yacht and also complies with ABYC and CE standards for safer boating.

The power and technology are yours

Riviera is recognised as a world leader in embracing advanced and easy-to-use technology that today makes boating so much easier, safer and even more enjoyable.

The engine options we have selected for the shaft-driven 45 Open Flybridge have many outstanding qualities, including high tractive power even at slow speeds, smooth, powerful acceleration through the rev range, high-performance, low weight, low fuel consumption as well as low emissions.

The Riviera advantage

Riviera is continuing to lead the luxury motor yacht market and proudly stands behind the easy-to-use systems onboard its world-class designs.

A 5-year limited warranty on all Volvo Penta systems is now standard with every new Riviera and covers Volvo Penta helm stations, steering and propellers as well as major componentry of their high performance drivelines and fuel-efficient engines.

Available worldwide, this extended warranty complements the Riviera 5-year limited structural warranty and will provide even greater peace of mind for our valued Riviera boating family members.

Riviera Family members enjoy exclusive invitations to fun-filled social and boating education events, inspiring cruising experiences as well as special offers on genuine parts, electronics and our premium Riviera lifestyle collection.

Impeccable pedigree

The confident poise of the 45 Open Flybridge is just as evident offshore as it is at anchor – her solid and built-to-last hull with keel is the evolution of our rich 37-year history of building over 5200 world-class luxury motor yachts that are proven in the often-challenging Australian offshore conditions.

Every Riviera built at our world-class facility on Australia's Gold Coast combines superior-strength hand lay-ups with a watertight collision bulkhead forward, and independent compartments throughout the hull.

Our legendary build quality also features vinylster resin in the outer layer of lamination to increase the ability to withstand water absorption. An isophthalic gel coat exterior provides an impeccable and hardwearing surface finish.

From the waterline down, the hull is solid GRP with reinforced bottom, keel and chines. Structural core material is used in the hull flanks, main deck and hardtop, while precisely fitted, lightweight resin transfer-moulded small parts have a double-sided gel coat finish and are pre-fitted for a perfect seal when all the major components are bonded together.

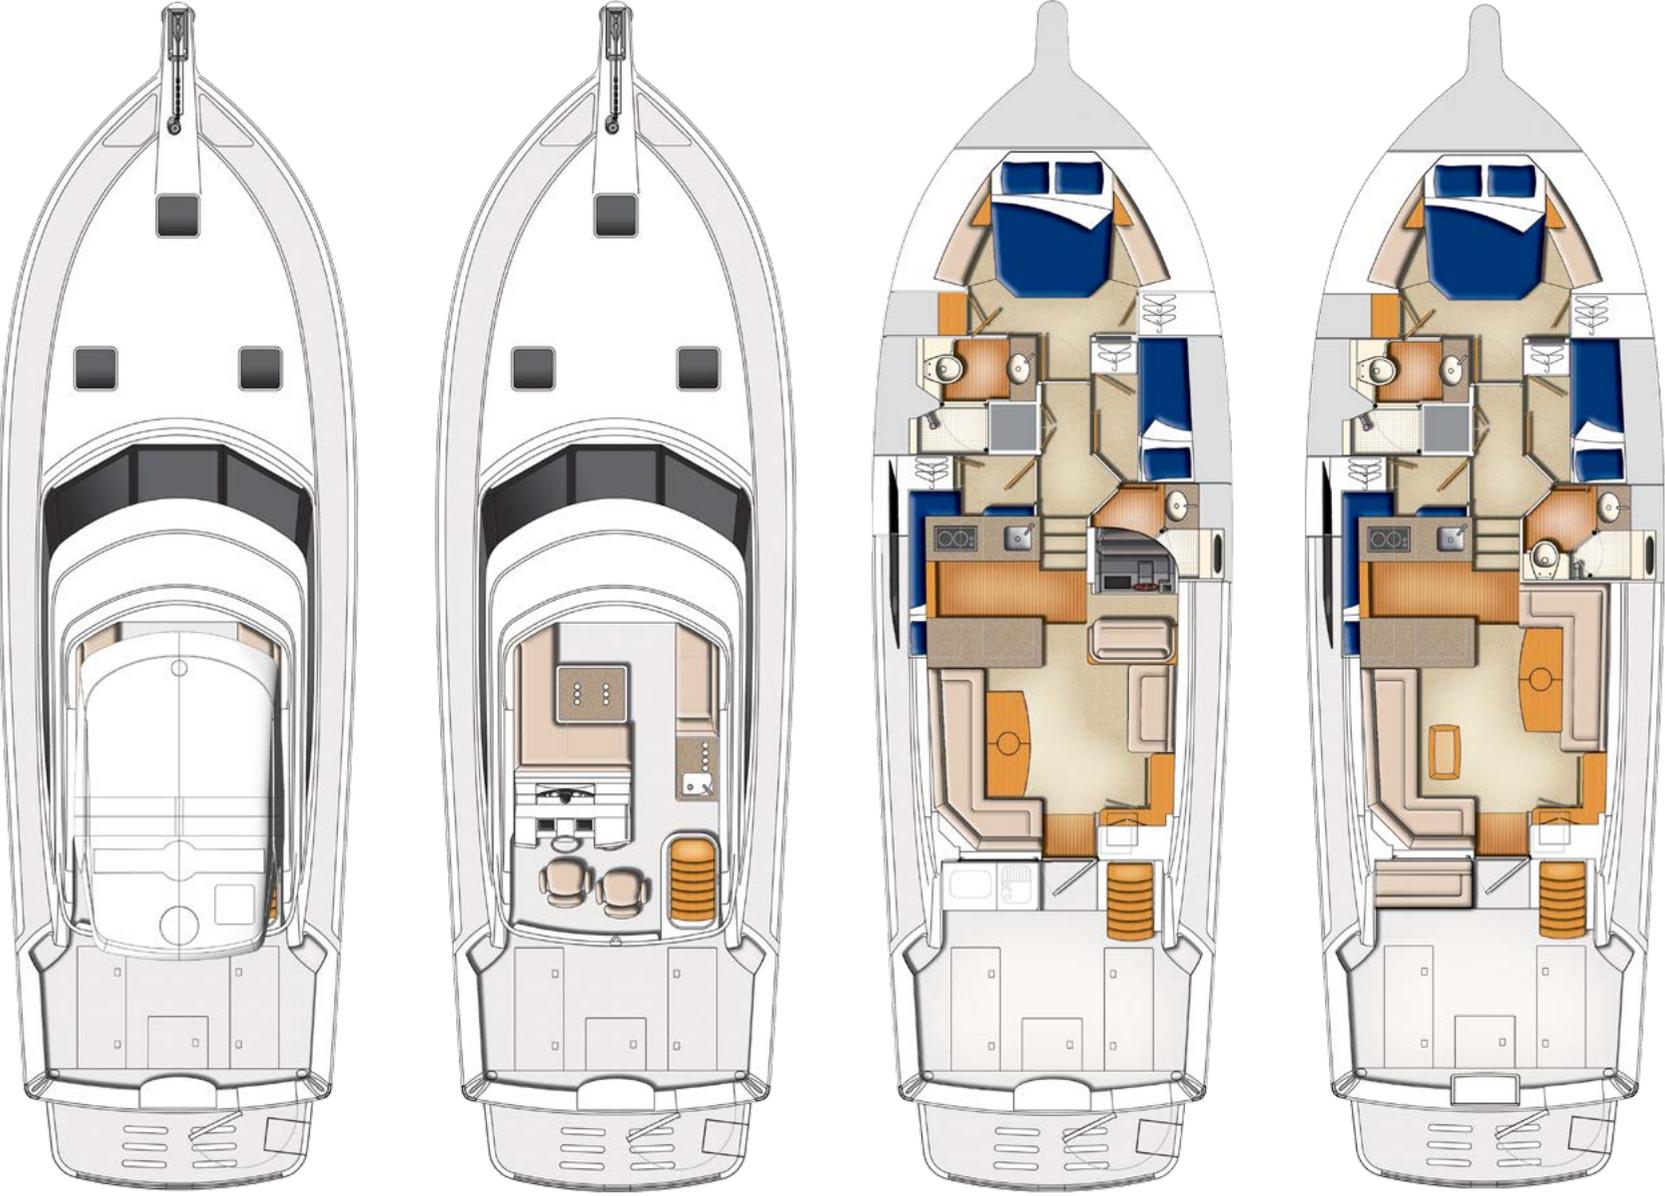

Riviera uses only 316 marine-grade stainless steel in all our exterior fastenings. All stainless steel rails feature ground and polished welds to ensure a consistently smooth and mirror finish.

Our designers have also placed a firm focus on convenient access to key maintenance points throughout the yacht so any issues can be quickly identified and addressed, and service costs are kept to a minimum.

Of course, this thoughtful consideration for our Riviera family of owners is a key part of our ethos of doing all we can to help our valued owners achieve ... 'the ultimate boating experience'.

*Specifications may vary on a regional basis.

Specification clarification

* Length of the hull (Lh) to ISO8666: Includes all structural and integral parts (ie. the moulded length of the hull). It excludes parts that can be removed in a non-destructive manner without affecting the structural integrity of the craft, (eg. pulpits, outdrives, driving platforms, rubbing strakes).

** Dry weight represents the estimated minimum weight of a yacht with standard engines and options, no fuel or water on board, no equipment or provisions and no personnel. The stated dry weight may be exceeded.

*** Denotes net tank capacity. For useable capacity do not rely on more than 90% of tank capacity. Actual capacity will vary according to yacht trim and sea state. Speeds are subject to normal weather conditions, fuel and/or water levels, passengers and equipment loads.

Our care for your information

Due to the constant refinement of specifications and design by Riviera Australia, the information in this document may change without notice.

Specifications may vary with time and by region.

Some images or illustrations in this brochure may include options or custom details.

Please note that as safety equipment specifications or standards vary by country, this aspect of your purchase will need to be completed by yourself and or your Riviera representative.

Please refer to your Riviera representative for specific warranty cover and the latest detailed list of inclusions and options prior to purchase.

The Reassurance of owning a Riviera

What sets Riviera apart as one of the world's great luxury motor yacht builders?

Is it the devotion to quality, standard of materials used, the ocean-tested structural strength, unsurpassed ease of operation, or the stylish, handcrafted luxury finish? Or perhaps it's the famous culture of care that transforms owners into the 'Riviera family'.

The answer is all of the above, and more. Much, much more. Over 38 years and the building of over 5300 luxury motor yachts, the 585-strong Riviera team have been on a continuous quest of evolution and refinement.

This remarkable heritage of knowledge matched by innovation allows us to marry the best of the time proven with the exciting and new. Witness our introduction of cutting edge touch screen digital technology and joystick maneuverability, which make navigating and operating a Riviera and Belize luxury motor yacht a relaxed and enjoyable experience.

Located on the Gold Coast, Queensland, our 14-hectare, state-of-the-art manufacturing facility is the largest facility of its kind in the Southern Hemisphere. From here we build on the notable Australian qualities of strength, practicality and love of water in the continent completely surrounded by three oceans and four seas. Then we test our designs in some of the toughest offshore conditions on earth. Hardly surprising that Riviera luxury motor yachts command impressive resale values worldwide.

Today, you can choose from five individual designs that make up our fabulous collection of luxury motor yachts, the Riviera Flybridge, SUV, Sport Yacht or Sports Motor Yacht models, along with our more traditional Belize Collection. All will withstand virtually anything the elements and you can put them through, with poise and ease.

Naturally, we back this confidence with an industry-leading 5-year structural limited warranty. In addition, with all our Volvo Penta powered yachts, we offer a 5-year limited warranty covering helm station controls and multi-function displays, steering and propellers, plus pod drives and engines.

Life is too short for needless compromise. So when it comes time to invest in your next dream motor yacht, why settle for a lesser option when you can enjoy all that makes up a Riviera.

Crafted with pride, with you in mind

Owner Care at Riviera and Belize is in a class of its own. Premium quality, professional and personal, it is all designed to be of the highest quality, in keeping with the world-class luxury motor yacht we are building specifically for you.

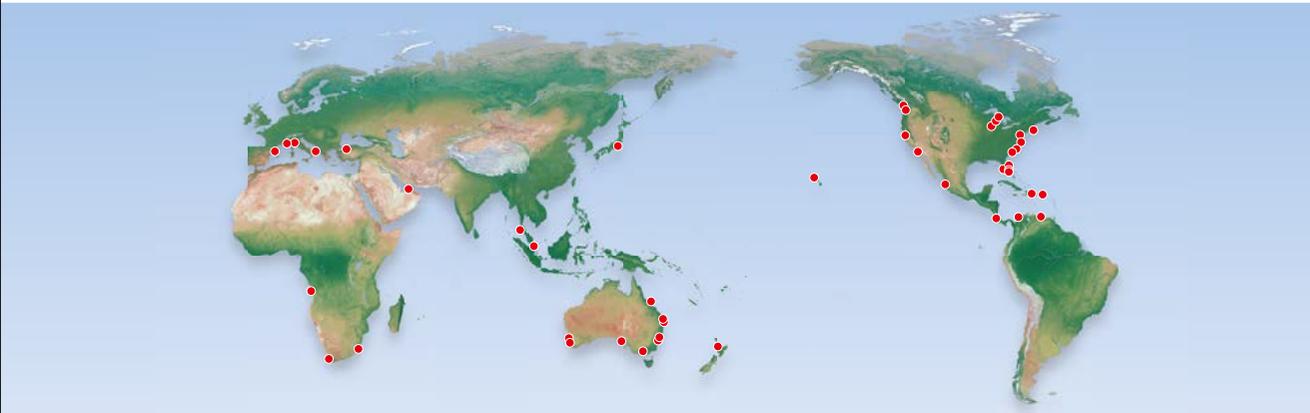

Like thousands of other happy owners, we are confident your every experience of dealing with us and our global representative team - from selecting your favoured options, electronics and decor, through to routine maintenance and repairs - will be conducted with the upmost respect and care.

Our highly skilled team consult and partner with internationally acclaimed naval architects, designers and engineers to ensure we fully embrace the latest, most exciting industry standards and trends.

Constant communication with the worldwide family of Riviera owners also plays a vital part in helping guide and inform our new model development program.

All this pride in performance ensures Riviera will continue to exceed the evolving needs of discerning luxury motor yacht enthusiasts like you.

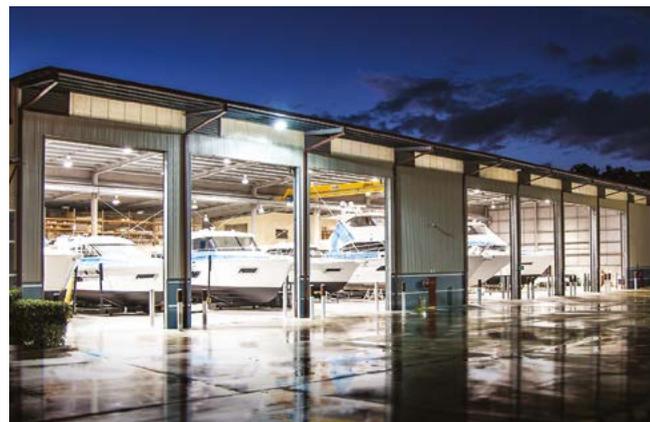

A global marque of excellence

For nearly four decades the Riviera team have been preoccupied with the relentless pursuit of excellence. That means never being satisfied with the status quo, rather forever looking to improve and refine our knowledge base by embracing the latest technologies and work practices.

All these endeavours by our factory team and international representative network are directed towards creating a superior luxury motor yacht experience for you. They have also garnered us enormous acclaim from the global boating industry along the way.

Over the years Riviera have accumulated an impressive collection of local, national and international awards recognising 'world's best practice' across the fields of education and training, employment, innovative manufacturing techniques, export, quality of workmanship and pioneering design.

More than testimony to our passion for handcrafting superior luxury motor yachts, they are your assurance of 'The Ultimate Boating Experience' when you decide to own a Riviera.

Electronics and systems

Electronics play an ever-increasing role in maximising the pleasure and safety of luxury motor yachts, and the choice of equipment that is available today is vast.

Selecting the equipment that meets your needs can be a very challenging task – and Riviera's electronics experts are here to assist.

We source the best systems from around the world, we help match technology to individual requirements and work closely with Riviera's international representative network to create systems that maximise your boating pleasure.

Riviera Genuine Parts and Accessories

Our passion for quality and practical design is reflected in our exclusive and growing range of clothing, accessories and décor items created to enhance your time afloat.

If you love your Riviera, you'll feel right at home with the Riviera Collection – an extensive range of casual, stylish, comfortable, practical equipment, clothing and accessories.

The Accessory and Décor collection ranges from storm jackets to stylish crockery.

To make your Riviera truly your own, we offer a wide range of fabrics, finishes and colour schemes that enable you to personalise your motor yacht.

Of course our experienced design team is always available to advise and assist you with your individual selection.

RivieraParts.com.au

The Riviera Experience

There's nothing quite like the exhilaration of blue-water cruising in company to remind our valued owners why they are so passionate about the rich and rewarding Riviera luxury life afloat.

For these are the types of passages that build the confidence and skills for people to use their yachts to their full potential, that create the very special memories that last a lifetime, and, importantly, are often the catalyst for long-lasting friendships.

Together, members of our growing global family of Riviera and Belize owners enjoy many special cruising experiences to idyllic destinations around the world – safe in the knowledge that experienced skippers and engineers are always close at hand.

We invite you to join with us for these special experiences – either to stretch your sea legs and gain offshore cruising confidence, or to simply enjoy the company of like-minded people who share an appreciation for the truly unique Riviera life.
